

DO YOU CARE

(Written and Organized by Ronald W. Laster)

Seasons change, things they stay the same
Even so, my life, I can't complain
People are there, they can't go anywhere
It seems to me, that they don't even care, but do you care (?)

Do you care (Repeat)

Seasons change, still they do survive
I'm wondering when, they'll terminate their lives
People are there, they seem so unaware
It seems to me, that they don't even care, but do you care (?)

Do you care (Repeat)

(Bridge)

Guinea pigs, or human beings
Either or, they're surely one of these things
People are there, afraid to breathe the air
It seems to me by now they've got to care, but do you care (?)

Do you care (Repeat)

I wanna know if you care
Tell me what is going on
Do you care about the problems
Care about the troubles
Do you care about the mothers
Care about Fathers
Do you care about the people
Do you care about the systems
Tell me what's going on
Do you care about the problems
Do you care about the problems
Do you care about the troubles
Do you care, Do you care, Do you care, what's going on
Do you care
Desperate situations
Do you care, what's going on
Do you care about the problems
Serious situations
Do you care, do you care
