Talking Intro

Say baby, do you think it's possible that we can start all over again?

Verse 1

Take a good look at me, I'm not half the man I used to be but I want you by my side
Can you tell I'm not doing too well
Some things I just can't hide
When I go to bed at night and you're not within my sight
I toss and turn and sleep would never come
Now what am I to do my life is empty without you
If only I could take back the things that I've done

Chorus

Let's start all over again (all over again)
let's make our love from the beginning to the end
Start all over again (all over again)
Let's make our love from beginning to the end

Verse 2

A brand new start and a mended heart is all I'm longing for
A tender kiss and all the things I missed
I wouldn't ask for anything more
(If only we could face reality)
Go on with life not like before
Let's put the past behind

Chorus

And start all over again (all over again)
lets make our love from beginning to the end
And start all over again (all over again)
Let's start our love from beginning to the end.

With A brand new and a mended heart
is all I'm longing for

a tender kiss and the things I've missed Who could ask for anything more
How about it girl, give me one chance It's our romance
let's start all over again(all over again)
Start our love from beginning to the end
And start all over again (all over again)
Let's take our love from beginning to the end
And start all over again(all over again)

Rap

Can we take it from the top
One mo' gin for old times my friend and then
See if we can right these wrongs
Love away the hurt that helped write these songs
Lemme reset, rewind it back
Play it in real time with the volume
Maxed
I'm gon love you out loud I ain't shamed to say
I want that old thing back so I came to say
I think I need a mulligan, uh
Can we pick it back up again huh
Can we start it over babe I swear I'll make you fall in love again
Normally I don't back track, but ooh me and you what a perfect match
The love bug I caught it all over
I was wonderin' if we could start it all over

Chorus
